Bachelor in History
Education: May 2011

ABOUT

As a *Full-stack Web Developer* with a strong background in customer service, I possess a strong work ethic and a great team player attitude. I thrive on performance and a fast-paced atmosphere.

PROJECTS

Interactive Hangman

- This was built as a single page app. JQuery and CSS were the primary languages used. This app allows the user to play Hangman.

Link to project: <https://github.com/pootsmagoots/Hangman>

Scheduler App

- This app was built using Ruby on Rails. This project allows users to schedule events and meetings.

Link to project: https://github.com/pootsmagoots/scheduler_app.io

Travel App

- This is a full stack app, using angular for the front-end and Rails with the back-end. This app was made for tourists to find things to do while visiting cities across the United States.

Back-end: <https://github.com/atflick/tourist-app-project-3>

EXPERIENCE

General Assembly, WDI January 2017– April 2017

- WDI student at a full-stack web development program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development.
- Developed a portfolio of individually focused and collaboratively focused projects.

Ratner Companies, Project Coordinator November 2015-October 2016

- Coordinated with other property managers to fix any structural damage.
- Worked as a team to evaluate property damage and find best possible quotes.
- Met deadlines to ensure operations ran smoothly, and repairs were made.

Arhaus Furniture, General Manager June 2013- October 2015

- Resolved complex customer service needs. Oversaw a multi-million dollar operation with a staff of about 20 employees.
- Worked in a fast-paced atmosphere, helping to "close" thousands of dollars worth of sales.
